„Photonics4All Start-up Challenge"

Date: 13. October 2016, 13:00 - 16:00

Location: Messe Berlin, micro photonics, career lounge, hall 7.2c

Registration: http://optecbb.de/lang/de/anmeldung_20161013_startup.php

Program

13:00 – 13:15	Welcome, OptecNet, Photonics4All Project Dr. Frank Lerch, OpTecBB Johannes Verst, Photonics BW	
13:15 – 13:25	Pitch 1: Sicoya GmbH (Germany)	High-speed Silicon Photonics interconnects in next generation data centers
13:25 – 13:35	Pitch 2 TeraTonics (France)	Terahertz Sensing
13:35 – 13:45	Ref. 1 HTGF and possibilities for Start-ups Lucille Bonnet (HTGF)	
13:45 – 13:55	Pitch 3 Lilian Labs (Germany)	Water analysis device for everyone
13:55 – 14:05	Pitch 4 mir sense (France)	Laser based gas sensors
14:05 – 14:15	Ref. 2 WISTA and the Special Services for Start-ups Lars Hansen (Head of Charlottenburger Innovations-Centre (CHIC))	
14:15 – 14:25	Pitch 5 Asaphus Vision GmbH (Germany)	Develop embedded face recognition and gaze estimation software
14:25 – 14:35	Pitch 6 GreenTropism (France)	Mathematical models and software components for biospectral analyses
14:35 – 14:45	Ref. 3 Starting a Photonics Company Dr. Jürgen Schmied (GATTAquant GmbH)	
14:45 – 14:55	Pitch 7 AIXEMTEC GmbH i.G. (Germany)	Automation and assembly of optical systems
14:55 – 15:05	Pitch 8 Crystalline Mirror Solutions GmbH (AT)	AlGaAs-based multilayers, in high-performance laser optics
15:05 – 15:20	Ref. 4 Founding and Financing High-Tech Start-ups Prof. Rust (Mock Rechtsanwälte)	
15:20 – 16:00	Award ceremony/photo etc. and Get Together
